

I heard that the wisconsin do not call list is threaten,I do not want to see this taken away. Since it has been in place and I signed up for it, I have not recieved any telemarketing calls. I was bombarded with those calls one a daily basis. I have the right to my privatcy. This is one law that actually works. Its bad enough that I get tons of landfill mail in my mailbox, I don't need it comming over the wire. Lets keep this on going!
